

Attention Pinelands Water Company Customers

As we enter the summer season and the typical higher use of water, we remind you to use water wisely, particularly for outdoor uses during the hot and dry seasons. There are many ways to do this **effectively**, which can be found on the NJ DEP website at <https://www.state.nj.us/dep/watersupply/consERVE.htm> describing suggested water wise activities.

Please help us ensure a plentiful water supply this summer by following Pineland Water's Even/Odd Lawn Watering schedule.

EVEN number addresses are permitted to water **Tuesday, Thursday and Saturday.**

ODD number addresses are permitted to water on **Monday, Wednesday and Friday.**

In order to conserve water and prevent waste, please adhere to the following guidelines:

- No watering of lawns is permitted between the hours of 9:00 am and 7:00 pm (when watering is not as effective).
- **No watering of lawns is permitted on Sunday.**
- Make sure water is landing on vegetation, not hard paved surfaces.
- One inch of water per week is all your lawn needs to survive dry times.

Following these steps will help manage this precious resource delivered to your tap every day. Find out more by visiting the NJ DEP website.

Thank you.
