STANDARD TERMS AND CONDITIONS

4. SERVICE PIPES

4.1 The service pipe from the distribution main to the curb line, including the curb stop , meter pit and meter will be furnished, installed and maintained by the Company at its expense, except as otherwise provided in this Tariff.

4.2 Only employees or other persons authorized by the Company will be permitted to make connections to the mains, access meter pits, operate curb stops and remove, service, or repair meters of the Company.

4.3 The Company will control the size of the opening to be made in the distribution main and the size of the service pipe to be installed.

4.4 No service pipe will be installed until the connecting pipe has been installed and staked by the Customer within 24” of the curb or edge of pavement; or where the connecting pipe is installed -in the same trench with sewer pipe, gas pipe, electric conduit or any other facility.

4.5 A curb stop and meter pit will be installed by the Company at or near the premises, in such a manner as to permit the attachment of the customer's connecting pipe up to and including 2” diameter pipe. The curb stop -or meter pit is available for turning on and shutting off the supply of water in emergencies or for purposes of repair. Only Company employees or persons duly authorized to do so by the Company are permitted to operate the curb stop or meter pit.

4.6 No premises shall be supplied by more than one service pipe, unless agreed upon by the Company-.

4.7 Where two or more customers, within a single, contiguous structure, are supplied through a single service pipe, the piping of the exterior meter enclosure shall provide a separate lock valve ahead of the inlet to each customer's meter.

STANDARD TERMS AND CONDITIONS

4. SERVICE PIPES (Continued)

4.9 Any change requested by the customer in the location or configuration of the existing service pipe, if approved by the Company, shall be made at the expense of the customer including the necessary modifications to comply with the Company's cross connection control and exterior meter enclosure requirements.

4.10 Where a service pipe is for temporary use, the customer shall bear the entire expense of making and removing the connection, subject to a refund whenever service is established on a permanent basis.

4.11 Where a service pipe is available for a customer's premises, the customer may obtain a larger size service without charge, provided such service is established on a permanent basis. Any subsequent request for a reduction in the size of the meter shall be subject to Company approval and the payment by the customer of the cost of installing the larger size service.

4.12 Where a large size service pipe has been installed at the request of a customer, for premises not previously supplied, any subsequent request for a reduction in the size of the meter shall be subject to Company approval and the payment by the customer of the difference between the cost of installing the service pipe and the cost of installing a service line that is usually installed with the new sized meter.

4.13 Charges and costs, if any, associated with special road opening and restoration requirements imposed by the governing agency shall be reimbursed by the customer (or prospective customer) requesting said work resulting in the need to open a roadway under moratorium.. This includes fines or charges in excess of normal road opening permit fees, costs for restoration work required, and any other costs incurred by the Company for this work. The burden of obtaining the approval of the governing agency for this road opening, and any costs related to this approval shall be the responsibility of the customer (or prospective customer).

4.14 Charges for service pipe installation that are excessive shall be paid by the Customer. The cost of a service pipe installation shall be considered excessive if the cost of the installation exceeds two (2) times the average cost of the same diameter service of the previous 12 month calendar year. The Customer shall reimburse the Company for the difference between the actual installation costs and the amount used to determine if the costs is excessive.

STANDARD TERMS AND CONDITIONS

7. CUSTOMERS' PREMISES (Continued)

7.8 Physical connections, such as cross connections, either permanent or temporary, between pipes on a customer's premises supplied by the Company and any unapproved source of supply, including but not limited to private wells, are strictly prohibited.

7.9 In any premises where an NJDEP approved auxiliary water source is permitted, the pipes carrying water from the mains of the Company are required to be marked in some distinctive manner for ready identification.

7.10 No device or connection shall be permitted between pipes or fixtures carrying water from the mains of the Company and any portion of the plumbing system of the premises or any other piping system on the premises in cases where the system is not designed to prevent backflow or back-siphonage in accordance with the Company's Cross Connection Control Plan.

7.11 If a premise is to remain unoccupied for an indefinite period, customers are advised to have the interior plumbing drained, especially during cold weather, to avoid damage to pipes and fixtures. When requested, the Company will suspend service to unoccupied premises temporarily by shutting off the water at the curb and removing the meter.

7.12 Whenever leakage occurs on pipes and facilities owned by the customer, the customer shall make the necessary repairs without delay. If the customer fails to make said repairs, the Company reserves the right to discontinue the supply until such time as the leak is repaired. A reconnection charge will apply should the Company take action to physically discontinue water service.

7.13 All costs associated with periodic testing of an approved backflow prevention device and reporting of said test results shall be the responsibility of the Customer. The reporting format and mechanism for reporting test results shall be determined by the Company.

7.14 The installation of a private well(s) located on the property of existing residential customers is/are strictly prohibited. Pre-existing, residential private wells shall be properly decommissioned and proof of said the proper decommissioning shall be provided to the Company prior to the transfer of the real property and prior to the issuance of a final reading of a closing residential customer account. Customers with pre-existing private wells that pose a public health risk to the community water system, as determined by the Licensed Operator, shall have their service terminated until such time as the private well is decommissioned the well. The use of a private well without an approved Physical Connection Permit issued by the State of New Jersey shall be grounds for the immediate termination of water service in the case of existing customers; and shall be the basis for the denial of service for Applicants seeking water service from the Company unless they have been sealed by a New Jersey licensed well-drilling contractor and adequate documented has been provided to the Company.
