

CROSS CONNECTION CONTROL PROGRAM – INSPECTION NOTICE

Date:

John Smith
P.O. Box 123
Perfectville, MI 48098

RE: [FACILITYNAME] at [SERVICEADDRESS1]

Dear Water Customer,

The purpose of Tidewater Utilities, Inc. (TUI) Cross Connection Control Program is to help eliminate possible contamination of the public water distribution system.

Our records indicate it is time for a cross-connection survey of the backflow prevention assembly(s) at your facility. Surveys will be performed by TUI's ASSE (American Society of Sanitary Engineering) certified surveyors at no cost to you.

Any costs associated with the replacement, modification, installation, and/or testing of backflow prevention assembly(s) is the responsibility of the property owner/manager and/or occupant.

Please contact TUI at TUIDist_CCC@middlesexwater.com to schedule an inspection of your facility. You will be notified following the survey if corrective measures and/or testing of backflow assemblies is necessary.

Thank you for assisting us with protecting our water supply!
